Life in the Shadows Nancy Legere 2019-04-12 Childhood is supposed to be a time of innocence, discovery, making friends, learning, and enjoying

simple, uncomplicated days filled with laughter and fun. But what happens if those idealistic hopes and dreams are squashed in an instant when that little girl is sexually abused? What then? Life in the Shadows is the true story of how one such little girl lived with crippling feelings of shame and an overwhelming need for secrecy. What followed was a life struggling to cope with severe symptoms of Post-traumatic stress disorder, turning to alcohol for relief and escape, leading to sleep deprivation and almost absolute isolation. Nancy Legere openly shares how she managed to climb up out of the seemingly never ending darkness that enveloped her life after she was raped at the tender age of seven, and the years that ensued with her falling deeper and deeper into the abyss of anger and fear caused by feelings of self-loathing. Feelings of being unworthy of love and incapable of showing any emotion caused Nancy's life to spiral out of control to the point of contemplating suicide to end her struggles with life as she knew it. "Nancy brings her courage and 'tell it like it is' persona to this story of her journey out of the hell that is childhood sexual abuse, to the healing path she is now walking. She shares openly and honestly about the toll the abuse took on her physically, emotionally, and spiritually, and how she eventually took back her life and her power. It is a triumphant, hard-hitting, sometimes challenging read that leaves us hopeful about finding our way out of the shadows." Dawn McKelvie Cyr,

Authentic Human Sexuality Judith K. Balswick 2013-12-21 Sex pervades our culture, going far beyond the confines of the bedroom into the workplace, the church and the media. Yet despite all the attention and even obsession devoted to sex, human sexuality remains confusing and even foreboding. What, after all, is authentic human sexuality? That is the question Judith and Jack Balswick set out to answer in this wide-ranging and probing book. Informed by sociology, psychology and theology, the Balswicks investigate how human sexuality originates both biologically and

socially, lay groundwork for a normative Christian interpretation of sexuality, show how authentic sexuality is necessarily grounded in relationships, and explore such forms of "inauthentic sexuality" as sexual harassment, pornography and rape. Since its first publication in 1999, *Authentic Human Sexuality* has established itself as a standard text at numerous colleges and seminaries. While maintaining the book's overall structure, this new paper edition offers updated discussions and bibliographies throughout, including a completely new chapter on sexual development throughout the human lifespan and a substantially revised chapter on sexual beings in relationship that incorporates a trinitarian theological perspective. A new generation of students, pastors, psychologists and sociologists engaged in counseling will be indebted to the Balswicks for this updated study of this endlessly fascinating and perplexing facet of human identity.

CBT for Compulsive Sexual Behaviour Thaddeus Birchard 2015-05-15

Increasing numbers of therapists are coming into contact with the problem of compulsive sexual behaviour disorders. However, it is still a relatively new field and there is little in the current literature available that enables the therapist to work with and treat this problem. CBT for Compulsive Sexual Behaviour: A guide for professionals addresses this by providing a guide to cognitive-behavioural theory and practice which includes the assessment, diagnosis and treatment of addictive sexually compulsive disorders. Beginning with a description of addictive sexuality and an overview of cognitive behavioural therapy in which CBT is presented as the most useful response, Thaddeus Birchard provides clear therapeutic information about the implementation of CBT treatment intervention. The chapters included cover the neuroscience that underpins the addictive process; a 'how to' chapter on the use of groups; paraphilias; trauma and attachment; comorbid disorders and cross-addictions and analysis on the function of internet pornography, all written from a cognitive behavioural stance. Using case vignettes throughout, Thaddeus Birchard draws on his own experience as a psychosexual therapist, along with the latest research in the field, to enable the therapist to treat a range of compulsive sexual problems in a way that can be applied in individual practice or in a group setting as well as how to prevent relapse. This book will be essential reading for psychosexual therapists, cognitive behaviour

therapists and other professional working with sexual compulsive disorders.

Recovery Zone Volume 2 Patrick Carnes 2021-10-19 The process of therapy and treatment means stepping into an unfamiliar, new world with very different perspectives, processes and even its own language at ties. The goal of this extraordinary world is to repair, restructure, and build the internal structures to cope with losses, trauma, dysfunction, toxic stress, and addiction. The first of the Recovery Zone series focuses on the often

painful and difficult internal tasks for that transition. This first book in the series by Patrick Carnes is already regarded as a classic and has been a durable best seller for the past decade. The second volume is now here, and Dr. Carnes helps with the issue of "now that I know all of this, what do I do?" How to translate the inner transformation into my everyday world? I have discovered the real "me" but what does that mean for me to integrate ideas and skills with my relationships, work, values, lifestyle -- and be happy? Much has been written about overcoming trauma, grief, dysfunctional relationships and the sinkholes of the various addictions. The sequel of Recovery Zone provides real answers about how to stay in the zone when traumatic events, toxic stress, and easy access to escape surrounds you. The goal must be an "Ultimate To Do List" so you do not miss out on the life you want and feel a genuine call to do. Core to this platform is a resilience built on ten master skills and thirty operational strategies that users describing as "defining" passage into a new life. The joke about life being what happens when you are on the way to do something else, has little reality at the end of this second volume. Dr. Carnes is widely known for his personal sharing, his warm and engaging stories, and his ability to weave complex science into something that everyone can use. These materials have evolved with the help of over two thousand therapists and the experiences of many thousands of patients.

Another vintage of classic Carnes's writing.
