Transmissions and Translations in Medieval Literary and Material Culture Megan Henvey 2021-12-16 "Bringing together the work of scholars from disparate fields of enquiry, this volume provides a timely and stimulating exploration of the themes of transmission and translation, charting developments, adaptations and exchanges - textual, visual, material and conceptual - that reverberated across the medieval world, within wide-ranging temporal and geographical contexts. Such transactions generated a multiplicity of fusions expressed in diverse and often startling ways - architecturally, textually and through peoples' lived experiences - that informed attitudes of selfhood and 'otherness', senses of belonging and ownership, and concepts of regionality, that have been further embraced in modern and contemporary arenas of political and cultural discourse. Contributors are Tarren Andrews, Edel Bhreathnach, Cher Casey, Katherine Cross, Amanda Doviak, Elisa Foster, Matthias Friedrich, Jane Hawkes, Megan Henvey, Aideen Ireland, Alison Killilea, Ross McIntire, Lesley Milner, John Mitchell, Nino Simonishvili, and Rachael Vause"--

Research and Archaeology Revisited Maria Medlycott 2011 This review of Research and Archaeology augments the regional research framework, which appeared in two parts as a Resource Assessment (Glazebrook ed. 1997); and a Research Agenda and Strategy (Brown and Glazebrook eds 2000). The review considers new evidence on a period-by-period basis, with each period subdivided into an assessment of key projects undertaken since 2000, an assessment of progress on research topics proposed in 2000 and a consideration of future research topics. The regional research framework was never intended to be a fixed point but rather a dynamic process through which the region's archaeology can be influenced, and subject to periodic review and revision. All three parts of the framework are available online (at www.eaareports.org.uk) and will be kept live and updated by the historic environment community of the East of England as new discoveries are made and new research priorities established.

Hard Times illustrated Charles Dickens 2021-08-18 Hard Times illustrated Charles Dickens - Hard Times: For These Times (commonly known as Hard Times) is the tenth novel by Charles Dickens, first published in 1854. The book surveys English society and satirises the social and economic conditions of the era. "Now, what I want is, Facts. . . . Facts alone are wanted in life." Thus begins Superintendent Mr. Gradgrind—a wealthy, retired merchant—addressing a group of young students at his school in the industrial town of Coketown, England. A rigid man of fact, rational self-interest and realities, he not only teaches his pupils according to the utilitarian principles, but also raises his children with the same philosophy. When they grow up, as their lives begin to turn chaotic, they reproach their father for their upbringing. Will Mr. Gradgrind realize his flaws and become a humble man? Satirizing the laissez-faire system, Dickens' Hard Times lays bare the wide gap between the rich and the poor. Criticizing the materialistic world, this Victorian novel throws light on the value of emotions and the human heart. It has undergone several film and theatre adaptations.

The Latin New Testament H. A. G. Houghton 2016 Latin is the language in which the New Testament was copied, read, and studied for over a millennium. The remains of the initial "Old Latin" version preserve important testimony for early forms of text and the way in which the Bible was understood by the first translators. Successive revisions resulted in a standard version subsequently known as the Vulgate which, along with the creation of influential commentaries by scholars such as Jerome and Augustine, shaped theology and exegesis for many centuries. Latin gospel books and other New Testament manuscripts illustrate the continuous tradition of Christian book culture, from the late antique codices of Roman North Africa and Italy to the glorious creations of Northumbrian scriptoria, the pandects of the Carolingian era, eleventh-century Giant Bibles, and the Paris Bibles associated with the rise of the university. In The Latin New Testament, H.A.G. Houghton provides a comprehensive introduction to the history and development of the Latin New Testament. Drawing on major editions and recent advances in scholarship, he offers a new synthesis which brings together evidence from Christian authors and biblical manuscripts from earliest times to the late Middle Ages. All manuscripts identified as containing Old Latin evidence for the New Testament are described in a catalogue, along with those featured in the two principal modern editions of the Vulgate. A user's guide is provided for these editions and the other key scholarly tools for studying the Latin New Testament.
